PREPARING DELICIOUS MEALS

Food is fuel for one of the most sophisticated machines in the world – your body! Properly fueling your body means eating plenty of fresh fruits/vegetables, whole grains, beans, and moderate amounts of lean protein and healthy fats.

Many soldiers are busy and rely on food that comes from a restaurant (fast-food, take-out, or sit-down). You may also be eating more convenience foods or pre-packaged/highly processed foods because they require very little preparation and cooking time.

Frequent consumption of typical fast-food and/or take-out food (burgers, fries, regular sodas, fried chicken, pizza, etc.) makes it easier for you to ingest more fat, cholesterol, sodium, and calories than what your body actually needs. This can make you feel more sluggish and tired during the day. It can also make it more difficult for you to control your weight, and could increase your risk for chronic diseases like high-blood pressure, heart disease, and cancer.

On average, Americans spend \$1,200.00 per year on fast food! You can save money and stop relying so much on convenience foods by planning and preparing more nutritious meals. This guide will help you successfully navigate the road to eating healthier.

For under \$10, you could buy...

1 case (24 cans)

Step 1

HAVE HELPFUL COOKING DEVICES AND TOOLS ON-HAND

STEP 1: Have Helpful Cooking Devices and Tools On-Hand

Whether you live in the barracks, a small apartment, or a house, having some basic cooking tools will help with easy meal preparations. A few appliance such as a rice cooker, crock-pot or a toaster oven may help with simple meals. If you live in the barracks, check with housing office for specific guidance for cooking devices (rice cookers, crock-pots, etc.).

Pots, pans, and other cooking tools may be available to borrow from Army Community Service (ACS). If you must purchase your own cooking tools and devices, research and shop for the best quality at an affordable price. The next few pages contain an illustrative guide to some of the helpful and common cooking devices and tools. You do not have to purchase every single device pictured on the next few pages! Pick only those devices and tools you think you will use the most often. Be sure to follow the manufacturer's directions when operating, cleaning, and storing your kitchen devices and tools.

Research, Purchase, and Properly Care for Your Cooking Devices and Tools

When researching and purchasing your cooking device and/or tools:

- Refer to Consumer Reports Magazine (check your local library or search online). Some of the on-line reports are only available with a subscription while other reports are free of charge.
- Read the customer reviews.
- Check your local PX for cooking tools and devices (PX will match Amazon.com pricing for the exact same item).
- Check out AAFES on-line at: <http://bit.ly/1CVcaPX>.
- Check out Amazon.com and compare prices between local department stores.

After purchasing your cooking device and/or cooking tools:

- Register your device(s) immediately after purchase.
- Keep any warranty information and receipt(s) of purchase.
- Organize your operating manuals into a notebook with sheet protectors or an accordion file for easy reference.

Care for and store devices and tools according to manufacturer directions:

- To make clean-up easier, line baking sheets and oven pans with aluminum foil (do not put foil in microwave), parchment paper or spray with non-stick cooking spray.
- Use only wooden spoons or spatulas on non-stick cookware to prevent scratching and ruining the non-stick finish.
- Keep kitchen brushes and dish-rags handy and be sure to clean, replace, or disinfect these cleaning tools on a routine basis.
- Never operate a device with a frayed or damaged cord.

STEP 2

MAKE A WEEKLY MENU AND GO FOOD SHOPPING

STEP 2: Make a weekly menu and go food shopping at least once a week.

Planning a menu and keeping your barracks room well-stocked with healthier foods will set you up for success. Refer to the Resource Guide located near the end of this booklet for menu ideas and recipes (apps and cook books). Keep these guidelines below in mind when planning your menu:

1. **Examine your weekly schedule and look for days/times where you can devote more time to preparing healthy foods.**
2. **Make a grocery list that corresponds to your menu.** Check what and how much you already have on-hand so you don't duplicate or run low on required ingredients.
3. **Build in leftovers so you don't have to "cook" everyday of the week.** Stews, stir-frys, and pasta/rice/bean dishes can be made in larger batches and frozen or refrigerated for use later in the week.
4. **Purchase time-saving ingredients.** A few ideas include pre-washed salad mix, baby carrots, frozen vegetables/fruits, whole grain pasta/breads/brown rice, canned meats, canned/low-sodium beans, boneless/skinless poultry, low-sodium pasta sauce, chopped garlic (jar), minced ginger (jar) etc.
5. **Include healthier convenience-type foods in your menu like frozen meals, healthy soups, or already cooked and prepared whole chicken.** Read the food label and the ingredient list to help you. Follow the suggestions on the next few pages.
6. **Stick to your shopping list when at the store. It is easy to buy impulse items.** Eat before you go shopping to help avoid purchasing impulse items.

STEP 3

ALWAYS PRACTICE FOOD SAFETY

STEP 3: Always practice food safety! Avoid cross-contamination during food preparation

You can't see, smell, or taste harmful bacteria that may be lurking in your food or on your countertops. Follow the Food Safety Guidelines on these pages to protect yourself from a foodborne illness during food preparation.

- **Wash hands thoroughly in hot, soapy water before, during, and after handling food:** Avoid touching face or hair when preparing food.
- **Always use a separate cutting board when cutting meats, veggies, fruits, etc.** Keep raw meat, poultry, fish and their juices away from other foods.
- **Always use a separate knife when cutting meats, veggies, fruits, etc.** or, thoroughly wash your knife between foods in hot/soapy water.
- **Cook raw/fresh meat to the correct temperature (insert meat thermometer half way into the thickest part of meat):**
Chicken, Turkey (fresh or ground): 165° F
Ground Beef: 160° F
Fresh Beef (steaks, roasts), Pork, Lamb, Seafood: 145° F
Note: Never re-insert a meat thermometer without first washing the probe in hot/soapy water and drying it with a paper towel.
- **Chill leftovers promptly:** Perishable foods or dishes containing meats, seafood, eggs, milk/dairy should not be left out for more than 2 hours at room temperature.
- **Cook or freeze fresh meat promptly:**
Cook or freeze fresh poultry, fish, ground meats within 2 days
Cook or freeze other beef, veal, lamb, or pork within 3-5 days
- **Re-heat leftovers to the correct temperature:** Reheat leftovers to 165° F or until steaming hot.

Freeze Meat Correctly

To minimize defrosting time, place smaller portions of meat into plastic freezer bags. Squeeze all of the air out when sealing the bag. Label outside of packaging with the current date. Most meats can be frozen for up to 3 months.

Steps to Defrost Meat Using a Refrigerator (Best Method):

1. **Plan ahead:** Most meats will take from 24 – 48 hours to thaw in the refrigerator. Larger portions of meat will take longer.
2. **Put frozen meat (do not remove from freezer bag) into a container that is at least 1-inch deep.** This keeps leaking juices from contaminating other foods in your refrigerator.
3. **Place the sealed and plated frozen meat on the bottom shelf of your refrigerator.**
4. **Prepare thawed ground meat, seafood, and poultry within 1-2 days of thawing.**
5. **Prepare thawed lamb, pork, beef, steak, and all other types of meats within 3-5 days of thawing.**

Steps To Defrost Meat Using a Microwave (An Alternative Method)

1. **Remove meat from its freezer bag, wrap, and/or Styrofoam packaging and place it in a microwave safe dish that is at least 1-inch deep.** (To more easily remove the frozen meat from its packaging, defrost it for a few minutes).
2. **Defrost your meat using the defrost setting on your microwave.** Refer to your user manual for the meat's preferred setting and timing. If your microwave doesn't have a designated defrost mode, set the power to 50 percent.
3. **Check the meat throughout the defrosting time.** As outer portions of ground meat thaw, remove them to a separate dish. If the edges of meat feel warm, stop microwaving and allow meat to stand for a few minutes or until edges are cold again.
4. **Immediately cook meat that has been defrosted in the microwave.** Don't let it stand for any length of time at room temperature or in the fridge.

STEP 4

PROPERLY STORE YOUR PERISHABLE FOODS

STEP 4: Properly store your perishable food (meat and meat dishes, dairy, eggs, and any leftovers).

Protect your perishable food from spoilage and bacteria by storing it correctly in the refrigerator and/or freezer. Refer to the guide on the next page.

Keep a refrigerator thermometer visible in the warmest part of your refrigerator (usually on the top shelf). Check it often. Make sure your refrigerator is reading 36° F - 40° F. If it is too warm ($\geq 41^\circ\text{F}$), bacteria can quickly multiply which could contaminate your food.

Keep it tasting fresh!

How to Prepare Scrambled Eggs in the Microwave:

- Spray a small microwavable container (bowl or large coffee mug) with cooking spray.
- Crack 2 eggs into the container and whisk them well with a fork. Egg substitute or egg whites may also be used.
- Add 1-2 Tbsp. of low-fat milk and stir.

Fill a whole wheat English Muffin with cooked eggs, fresh tomato, and spinach for an on-the-go breakfast.

Time-Saving Breakfast Ideas:

- **Whole grain cereal and low-fat milk or lactose-free milk.** Look for cereal that contains $\geq 3g$ fiber and $\leq 10g$ sugar. Top with fresh fruit.
- **Greek yogurt.** Top it with fresh fruit, $\frac{1}{4}$ cup low-fat granola, and/or a small handful of roasted almonds (1 oz. = 24).
- **100% Whole wheat bread with 1-2 Tbsp. of nut butter.** Choose all-natural, chunky or creamy nut butter (read label and look for no added sugar; nuts should be the only ingredient).
- **Protein packed fruit smoothie.** (use frozen fruit). In a blender, combine 1 cup frozen mixed berries, 1 banana, 1 orange (peeled, all seeds removed, and cut into segments), and $\frac{3}{4}$ cup Vanilla-flavored Greek Yogurt.

WHOLE WHEAT PANCAKES:

Ingredients:

Use Whole Wheat Pancake & Waffle Mix.

Look for a mix with $\geq 3g$ fiber/serving and $\leq 1g$ fat.

Directions:

Follow directions on the box and add in low-fat milk or lactose-free milk. Add fresh/frozen blueberries (thaw frozen), a sliced banana, and/or a teaspoon of cinnamon.

Store and Save for later:

Refrigerator: Refrigerate within two hours of cooking; place in plastic bag to prevent drying out. For best quality, refrigerate for only 1 day. **Freeze:** Place a sheet of wax paper between each pancake, then wrap pancakes tightly in aluminum foil or place in a heavy-duty freezer bag. For best quality, freeze for 1-2 months. When ready to eat, microwave each frozen pancake on HIGH for 30-60 seconds or, until steaming hot.

PUMPKIN SPICE MUFFINS

Ingredients:

1 box carrot cake mix
1 (15 oz.) can pure pumpkin puree
 $\frac{1}{4}$ cup applesauce
 $\frac{1}{4}$ cup water

Directions:

Pre-heat oven to 350 F. Line muffin pan with paper muffin liners. Simply mix all ingredients until just combined. Drop batter into muffin pan – filling each muffin cup to $\frac{2}{3}$ full. Bake for 20–22 minutes. Check for doneness using a knife inserted in the center of a muffin. If it comes out clean, the muffins are

finished. If not, cook for a few minutes longer and check again with a clean knife. Makes about 18 muffins.

Store and Save for later:

Pantry: Store in sealed container for 1-2 days. **Refrigerate:** Store in sealed container for 1 week. **Freezer:** Store in sealed container or heavy-duty freezer bag for 1 month.

BREAKFAST BURRITOS:

Ingredients:

12 eggs (6 with yolks, 6 without (just the egg whites). Or, use egg-substitute.
 $\frac{1}{4}$ cup skim milk
1 red pepper, diced
1 green pepper, diced
1 onion, diced
 $\frac{3}{4}$ lb. turkey sausage
1 cup reduced fat cheddar cheese, shredded
10 whole wheat tortillas

Directions:

In a bowl, crack the eggs one at a time, add the milk, and beat together with a whisk or a fork until well blended. In a large skillet over medium high heat, brown the sausage, peppers, and onions until the sausage is no longer pink and the vegetables are tender. Turn the heat down to medium and add the eggs. Let the eggs cook for a minute or two. You can then scrape the eggs from the edge of the pan to the center and continue doing this until the eggs are just about set. Sprinkle the cheese on top and let rest for 20-30 seconds while the cheese melts.

Spoon some of the sausage and egg filling in the center of a tortilla. Wrap up each tortilla burrito-style, with the sides folded in. Place each burrito seam side down and allow to cool for a couple of minutes. Makes 10 burritos.

Store and Save for later:

Freeze: Wrap each burrito in plastic wrap and then either wrap in foil or place in a plastic freezer bag. When ready to eat, remove all wrappings and place in the microwave oven for ~ 90 seconds.

MAKING BETTER CHOICES WHEN DINING OUT

When you eat in the DFAC or when you visit a restaurant (fast-food or sit-down), follow the guidelines on the next few pages to help you make healthier food choices.

Go for Green® is a Department of Defense (DoD) nutrition program designed to help you identify healthy food and beverage choices in the DFAC. Food and beverage choices are color-coded either green, yellow, or red based on nutrition quality (fiber, sugar, degree of processing, type and amount of fat and overall wholesomeness). Look for the green, yellow, and red labels at the DFAC and pick foods/beverages identified as “Green” as often as possible.

MAKE BETTER CHOICES WHEN DINING OUT

Cut calories and/or reduce fat by following these guidelines when dining out.

Beverages:

- Choose water, light-lemonade, unsweetened iced tea, or diet soda instead of regular soda.
- Choose low-fat milk instead of a milkshake.

Sandwiches:

- Ask for mayonnaise on the side or skip it all together. 1 Tbsp. of mayonnaise has 100 calories! Substitute mustard for the mayonnaise.
- Skip the special sauce.
- Skip the cheese.
- Order sandwiches with low-fat meat (turkey, lean roast beef, grilled chicken).
- Ask for extra veggies on sandwiches.

Sides:

- Instead of fries, order a side-salad with low-fat dressing or a baked potato without butter (or, butter on the side).
- Choose baked chips or pretzels over regular chips.
- Bring your own side from home (raw carrot sticks, fresh fruit) and save money!

Meals and/or main dishes:

- Avoid super-sizing; order a kids meal instead.
- Order ½ portions or split an entrée with a friend or co-worker.
- Choose baked, broiled, or grilled meats over fried meats.
- Watch out for fat-laden sauces (Alfredo, cheese, or cream). Instead, choose marinara, vinaigrette, salsa, or mustard-based sauces and/or ask for the sauce to be put on the side so you can control the calories.

Salads:

- Order low-fat or vinaigrette dressing on the side.
- Skip the cheese, croutons, or fried noodles (or, order them on the side so you can control the portions).
- Top salads with grilled chicken instead of fried chicken, pepperoni, or ham.
