NOTICE TO THE TRADE – DECA NOTICE 20-31

SUBJECT: CY 2020 Sales Floor Rack/Cooler Program – Presentations for Innovation

DeCA has exercised the 2020 option year as described in attached NTT 19-06. The purpose of this notice is to announce the Sales Directorate will accept presentations for innovation only to update the current sales floor rack/cooler program covered by NTT 19-42, attached.

Presentations must be submitted via email to Ms. Iveena Henderson, Category Manager, by COB February 23, 2020.

The primary focus for the rack program is to feature items that lend themselves to off-shelf displays, are highly promoted, high velocity or seasonal, and in the commissary assortment. Not included in this program are in-line front-end racks, shippers, the National Industries for the Blind, and temporary fixtures to support new product introductions. Additionally, items proposed for the program will not be allocated outside of their store class size to accommodate a rack. For example, a rack offered for a K2 class store should not contain K3 items.

A written business case or PowerPoint presentation is required and must contain the following information at a minimum:

- Brand, nomenclature, and item UPCs to be displayed on the rack/cooler; if rack is seasonal and/or product will be rotated through, this information should be included (items/UPCs by season or rotational interval)
- 2018 sales and savings comparison with civilian AOC
- Category rank of offered brand/item(s)
- Desired display performance timeframe, if seasonal
- Desired in-store location
- Desired store classification
- Type of display fixture, to include photo, dimensions, proposed store class; include different sized racks to support each store class if proposing multiple size offers
- Previous rack sales history, if any, to include participating stores
- Projected anticipated sales (dollar and units) and projected patron savings
- Include program details (e.g., projected items segment that will be included on the racks for each season or month)

Additional program requirements include:

- Electronic Data Interchange pricing preferred; Web pricing will be considered
- Swell allowance to cover hidden damage and product out-of-code/expiration dates
- Racks must be maintained by Industry to include stocking, cleaning, repair
- Suppliers may provide additional information to strengthen their business case for program acceptance

Proposals should be made with the understanding that approved racks will be mandated by store class. Selections and approvals by DeCA are made in good faith that racks placed in stores will be maintained in a serviceable and clean condition, and that rack items will be replenished in a timely manner. Failure may result in the removal of the racks.

DeCA anticipates making decisions and announcing rack program selections by February 28, 2020, with implementation beginning in March 2020.

Point of contact for this program is Ms. Iveena Henderson, [iveena.henderson@deca.mil](mailto:iveena.henderson@deca.mil), or 804-734-8000, extension 86727.

NOTICE TO THE TRADE – DECA NOTICE 19-06

SUBJECT: CY 19/20 Sales Floor Rack/Cooler Program Presentations

The purpose of this notice is to announce the Sales Directorate will accept presentations to update the current sales floor rack/cooler program covered by DeCA Notice 18-21. Presentations must be submitted via email to Ms. Iveena Henderson, Category Manager, (with copy to the respective category manager) by **COB February 8, 2019**.

Please note, Ms. Henderson is serving as the lead for the program; respective category managers will be involved in the review and selection process.

The primary focus for the rack program is to feature items that lend themselves to off-shelf displays, are highly promoted, high velocity or seasonal, and in the commissary assortment. Not included in this program are in-line front-end racks, shippers, the National Industries for the Blind, and temporary fixtures to support new product introductions.

Items proposed for the program will not be allocated outside of their store class size to accommodate a rack. For example, a rack offered for a K2 class store should not contain K3 items.

A written business case or PowerPoint presentation is required and must contain the following information at a minimum:

- Brand, nomenclature, and item UPCs to be displayed on the rack/cooler; if rack is seasonal and/or product will be rotated through, this information should be included (items/UPCs by season or rotational interval)
- 2018 sales and savings comparison with civilian AOC
- Category rank of offered brand/item(s)
- Desired display performance timeframe, if seasonal
- Desired in-store location
- Desired store classification
- Type of display fixture, to include photo, dimensions, proposed store class; include different sized racks to support each store class if proposing multiple size offers
- Previous rack sales history, if any, to include participating stores
- Projected anticipated sales (dollar and units) and projected patron savings
- Include program details (e.g., projected items segment that will be included on the racks for each season or month)

Additional program requirements include:

- Electronic Data Interchange pricing preferred; Web pricing will be considered
- Swell allowance to cover hidden damage and product out-of-code/expiration dates
- Racks must be maintained by Industry to include stocking, cleaning, repair
- Suppliers may provide additional information to strengthen their business case for program acceptance

Proposals should be made with the understanding that approved racks will be mandated by store class. Selections and approvals by DeCA are made in good faith that racks placed in stores will be maintained in a serviceable and clean condition, and that rack items will be replenished in a timely manner. Failure may result in the removal of the racks.

**DeCA anticipates making decisions and announcing rack program selections by February 28, 2019, with implementation beginning in March 2019.** The base period for this program is March-December 2019, with an option to extend for an additional year through 2020. Continuation for the optional year is automatic unless either DeCA or the vendor elects cessation. Exceptions may be made for new innovative industry programs that may occur.

Point of contact for this program is Ms. Iveena Henderson, [iveena.henderson@deca.mil](mailto:iveena.henderson@deca.mil), or 804-734-8000, extension 86727.

NOTICE TO THE TRADE – DeCA NOTICE 19-42

SUBJECT: **REVISED** April 2019-March 2020 Rack Program

The attached spreadsheets identify racks and coolers approved for placement in commissaries for the period April 2, 2019, through March 31, 2020. The primary focus of these units is for the off shelf display of high velocity and seasonal items, and items that do not have a permanent location on store shelves. Not included in this program are front-end racks, shippers, pallets, one time buys, local/regional products, and temporary fixtures to support new item introductions and product demonstrations.

Industry is requested to ensure these racks and coolers are maintained in a serviceable and clean condition and that items on these fixtures are replenished in a timely manner. Failure to maintain the fixture, product assortment, or signage could result in the unit being pulled from the program.

Racks not included on the approved list may be identified by stores for removal and placed in a holding area with notice to the applicable vendor allowing an appropriate timeframe for removal.

The Sales Directorate will publish updates to this program as applicable. Points of contact for this notice are each respective Category Manager.

MEMORANDUM FOR STORE DIRECTORS

SUBJECT: **REVISED** April 2019-March 2020 Rack Program

The attached spreadsheets identify racks and coolers approved for placement in commissaries for the period April 1, 2019, through March 31, 2020. The primary focus of these units is for the off-shelf display of high velocity and seasonal items, and items that do not have a permanent location on store shelves. Not included in this program are front-end racks, shippers, pallets, one time buys, local/regional products, and temporary fixtures to support new item introductions and product demonstrations.

These racks and coolers are mandatory, as identified, and commissaries are instructed to place these units in, or as close to, the departments or locations specified on the spreadsheet. Deviation from these mandatory fixtures must be approved by the Sales Directorate via a request for wavier routed through Store Operations. Racks not included on the approved list may be removed from the sales floor and placed in a holding area with notice to the applicable vendor allowing an appropriate timeframe for removal.

Selections and approvals by the Sales Directorate are made in good faith that the racks placed in stores will be maintained in a serviceable and clean condition, and that items on these racks must be replenished in a timely manner. The attached Notice to the Trade, NTT 19-21, has been released notifying Industry of approved units and the requirement to maintain the fixture, product assortment, and signage.

The Sales Directorate will publish updates to this program as applicable. Questions concerning this program, racks included, or any racks currently in stores that you believe should be included, should be addressed to the respective category manager.
