(End of clause)

52.219-9 SMALL BUSINESS SUBCONTRACTING PLAN (DEVIATION 2018-00018) (AUG 2018)

(a) This clause does not apply to small business concerns.

(b) Definitions. As used in this clause -

“Alaska Native Corporation (ANC)” means any Regional Corporation, Village Corporation, Urban Corporation, or Group Corporation organized under the laws of the State of Alaska in accordance with the Alaska Native Claims Settlement Act, as amended ([43 U.S.C. 1601](#), et seq.) and which is considered a minority and economically disadvantaged concern under the criteria at [43 U.S.C. 1626\(e\)\(1\)](#). This definition also includes ANC direct and indirect subsidiary corporations, joint ventures, and partnerships that meet the requirements of [43 U.S.C. 1626\(e\)\(2\)](#).

“Commercial item” means a product or service that satisfies the definition of commercial item in section [2.101](#) of the Federal Acquisition Regulation.

“Commercial plan” means a subcontracting plan (including goals) that covers the offeror’s fiscal year and that applies to the entire production of commercial items sold by either the entire company or a portion thereof (e.g., division, plant, or product line).

“Electronic Subcontracting Reporting System (eSRS)” means the Governmentwide, electronic, web-based system for small business subcontracting program reporting. The eSRS is located at <http://www.esrs.gov>.

“Indian tribe” means any Indian tribe, band, group, pueblo, or community, including native villages and native groups (including corporations organized by Kenai, Juneau, Sitka, and Kodiak) as defined in the Alaska Native Claims Settlement Act ([43 U.S.C.A. 1601](#) et seq.), that is recognized by the Federal Government as eligible for services from the Bureau of Indian Affairs in accordance with [25 U.S.C. 1452\(e\)](#). This definition also includes Indian-owned economic enterprises that meet the requirements of [25 U.S.C. 1452\(e\)](#).

“Individual contract plan” means a subcontracting plan that covers the entire contract period (including option periods), applies to a specific contract, and has goals that are based on the offeror’s planned subcontracting in support of the specific contract, except that indirect costs incurred for common or joint purposes may be allocated on a prorated basis to the contract.

“Master plan” means a subcontracting plan that contains all the required elements of an individual contract plan, except goals, and may be incorporated into individual contract plans, provided the master plan has been approved.

“Subcontract” means any agreement (other than one involving an employer-employee relationship) entered into by a Federal Government prime Contractor or subcontractor calling for supplies or services required for performance of the contract or subcontract.

(c) The offeror, upon request by the Contracting Officer, shall submit and negotiate a subcontracting plan, where applicable, that separately addresses subcontracting with small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business concerns, small disadvantaged business, and

women-owned small business concerns. If the offeror is submitting an individual contract plan, the plan must separately address subcontracting with small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns, with a separate part for the basic contract and separate parts for each option (if any). The plan shall be included in and made a part of the resultant contract. The subcontracting plan shall be negotiated within the time specified by the Contracting Officer. Failure to submit and negotiate the subcontracting plan shall make the offeror ineligible for award of a contract.

(d) The Offeror's subcontracting plan shall include the following:

(1) Goals, expressed in terms of percentages of total planned subcontracting dollars, for the use of small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns as subcontractors. The offeror shall include all sub-contracts that contribute to contract performance, and may include a proportionate share of products and services that are normally allocated as indirect costs. In accordance with [43 U.S.C. 1626](#):

(i) Subcontracts awarded to an ANC or Indian tribe shall be counted towards the subcontracting goals for small business and small disadvantaged business (SDB) concerns, regardless of the size or Small Business Administration certification status of the ANC or Indian tribe.

(ii) Where one or more subcontractors are in the subcontract tier between the prime contractor and the ANC or Indian tribe, the ANC or Indian tribe shall designate the appropriate contractor(s) to count the subcontract towards its small business and small disadvantaged business subcontracting goals.

(A) In most cases, the appropriate Contractor is the Contractor that awarded the subcontract to the ANC or Indian tribe.

(B) If the ANC or Indian tribe designates more than one Contractor to count the subcontract toward its goals, the ANC or Indian tribe shall designate only a portion of the total subcontract award to each Contractor. The sum of the amounts designated to various Contractors cannot exceed the total value of the subcontract.

(C) The ANC or Indian tribe shall give a copy of the written designation to the Contracting Officer, the prime Contractor, and the subcontractors in between the prime Contractor and the ANC or Indian tribe within 30 days of the date of the subcontract award.

(D) If the Contracting Officer does not receive a copy of the ANC's or the Indian tribe's written designation within 30 days of the subcontract award, the Contractor that awarded the subcontract to the ANC or Indian tribe will be considered the designated Contractor.

(2) A statement of—

(i) Total dollars planned to be subcontracted for an individual contract plan; or the offeror's total projected sales, expressed in dollars, and the total value of projected subcontracts to support the sales for a commercial plan;

(ii) Total dollars planned to be subcontracted to small business concerns (including ANC and Indian tribes);

 - (iv) HUBZone small business concerns;

 - (vi) Women-owned small business concerns.
- (4) A description of the method used to develop the subcontracting goals in paragraph (d)(1) of this clause.
- (5) A description of the method used to identify potential sources for solicitation purposes (e.g., existing company source lists, the System for Award Management (SAM), veterans service organizations, the National Minority Purchasing Council Vendor Information Service, the Research and Information Division of the Minority Business Development Agency in the Department of Commerce, or small, HUBZone, small disadvantaged, and women-owned small business trade associations). A firm may rely on the information contained in SAM as an accurate representation of a concern's size and ownership characteristics for the purposes of maintaining a small, veteran-owned small, service-disabled veteran-owned small, HUBZone small, small disadvantaged, and women-owned small business source list. Use of SAM as its source list does not relieve a firm of its responsibilities (e.g., outreach, assistance, counseling, or publicizing subcontracting opportunities) in this clause.
- (6) A statement as to whether or not the offeror included indirect costs in establishing subcontracting goals, and a description of the method used to determine the proportionate share of indirect costs to be incurred with—
- (i) Small business concerns (including ANC and Indian tribes);

(9) Assurances that the offeror will include the clause of this contract entitled "Utilization of Small Business Concerns" in all subcontracts that offer further subcontracting opportunities, and that the offeror will require all subcontractors (except small business concerns) that receive subcontracts in excess of \$700,000 (\$1.5 million for construction of any public facility) with further subcontracting possibilities to adopt a subcontracting plan that complies with the requirements of this clause.

(10) Assurances that the offeror will—

(i) Cooperate in any studies or surveys as may be required;

(ii) Submit periodic reports so that the Government can determine the extent of compliance by the offeror with the subcontracting plan;

(iii) Submit the Individual Subcontract Report (ISR) and/or the Summary Subcontract Report (SSR), in accordance with paragraph (l) of this clause using the Electronic Subcontracting Reporting System (eSRS) at <http://www.esrs.gov>. The reports shall provide information on subcontract awards to small business concerns (including ANCs and Indian tribes that are not small businesses), veteran-owned small business concerns, service-disabled veteran-owned small business concerns, HUBZone small business concerns, small disadvantaged business concerns (including ANCs and Indian tribes that have not been certified by the Small Business Administration as small disadvantaged businesses), women-owned small business concerns, and for NASA only, Historically Black Colleges and Universities and Minority Institutions. Reporting shall be in accordance with this clause;

(iv) Ensure that its subcontractors with subcontracting plans agree to submit the ISR and/or the SSR using eSRS;

(v) Provide its prime contract number, its unique entity identifier, and the e-mail address of the offeror's official responsible for acknowledging receipt of or rejecting the ISRs, to all first-tier subcontractors with subcontracting plans so they can enter this information into the eSRS when submitting their ISRs; and

(vi) Require that each subcontractor with a subcontracting plan provide the prime contract number, its own unique entity identifier, and the e-mail address of the subcontractor's official responsible for acknowledging receipt of or rejecting the ISRs, to its subcontractors with subcontracting plans.

(11) A description of the types of records that will be maintained concerning procedures that have been adopted to comply with the requirements and goals in the plan, including establishing source lists; and a description of the offeror's efforts to locate small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns and award subcontracts to them. The records shall include at least the following (on a plant-wide or company-wide basis, unless otherwise indicated):

(i) Source lists (e.g., SAM), guides, and other data that identify small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns.

(ii) Organizations contacted in an attempt to locate sources that are small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, or women-owned small business concerns.

(iii) Records on each subcontract solicitation resulting in an award of more than the simplified acquisition threshold, indicating -

(A) Whether small business concerns were solicited and, if not, why not;

(B) Whether veteran-owned small business concerns were solicited and, if not, why not;

(C) Whether service-disabled veteran-owned small business concerns were solicited and, if not, why not;

(D) Whether HUBZone small business concerns were solicited and, if not, why not;

(B) Business development organizations;

(C) Conferences and trade fairs to locate small, HUBZone small, small disadvantaged, and women-owned small business sources; and

(D) Veterans service organizations.

(v) Records of internal guidance and encouragement provided to buyers through—

(A) Workshops, seminars, training, etc.; and

(B) Monitoring performance to evaluate compliance with the program's requirements.

(vi) On a contract-by-contract basis, records to support award data submitted by the offeror to the Government, including the name, address, and business size of each subcontractor. Contractors having commercial plans need not comply with this requirement.

(12) Assurances that the Offeror will make a good faith effort to acquire articles, equipment, supplies, services, or materials, or obtain the performance of construction work from the small business concerns that it used in preparing the bid or proposal, in the same or greater scope, amount, and quality used in preparing and submitting the bid or proposal. Responding to a request for a quote does not constitute use in preparing a bid or proposal. The Offeror used a small business concern in preparing the bid or proposal if--

- (i) The Offeror identifies the small business concern as a subcontractor in the bid or proposal or associated small business subcontracting plan, to furnish certain supplies or perform a portion of the subcontract; or
- (ii) The Offeror used the small business concern's pricing or cost information or technical expertise in preparing the bid or proposal, where there is written evidence of an intent or understanding that the small business concern will be awarded a subcontract for the related work if the Offeror is awarded the contract.
- (13) Assurances that the Contractor will provide the Contracting Officer with a written explanation if the Contractor fails to acquire articles, equipment, supplies, services or materials or obtain the performance of construction work as described in (d)(12) of this clause. This written explanation must be submitted to the Contracting Officer within 30 days of contract completion.
- (14) Assurances that the Contractor will not prohibit a subcontractor from discussing with the Contracting Officer any material matter pertaining to payment to or utilization of a subcontractor.
- (15) Assurances that the offeror will pay its small business subcontractors on time and in accordance with the terms and conditions of the underlying subcontract, and notify the contracting officer when the prime contractor makes either a reduced or an untimely payment to a small business subcontractor (see 52.242-5).
- (e) In order to effectively implement this plan to the extent consistent with efficient contract performance, the Contractor shall perform the following functions:
- (1) Assist small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns by arranging solicitations, time for the preparation of bids, quantities, specifications, and delivery schedules so as to facilitate the participation by such concerns. Where the Contractor's lists of potential small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business subcontractors are excessively long, reasonable effort shall be made to give all such small business concerns an opportunity to compete over a period of time.
 - (2) Provide adequate and timely consideration of the potentialities of small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns in all "make-or-buy" decisions.
 - (3) Counsel and discuss subcontracting opportunities with representatives of small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business firms.
 - (4) Confirm that a subcontractor representing itself as a HUBZone small business concern is identified as a certified HUBZone small business concern by accessing the SAM database or by contacting SBA.
 - (5) Provide notice to subcontractors concerning penalties and remedies for misrepresentations of business status as small, veteran-owned small business, HUBZone small, small disadvantaged, or women-owned small business for the purpose of obtaining a subcontract that is to be included as part or all of a goal contained in the Contractor's subcontracting plan.
 - (6) For all competitive subcontracts over the simplified acquisition threshold in which a small business concern received a small business preference, upon determination of the successful subcontract offeror, the Contractor must inform each unsuccessful small business subcontract offeror in writing of the name and location of the apparent successful offeror prior to award of the contract.

(f) A master plan on a plant or division-wide basis that contains all the elements required by paragraph (d) of this clause, except goals, may be incorporated by reference as a part of the subcontracting plan required of the offeror by this clause; provided—

(1) The master plan has been approved;

(2) The offeror ensures that the master plan is updated as necessary and provides copies of the approved master plan, including evidence of its approval, to the Contracting Officer; and

(3) Goals and any deviations from the master plan deemed necessary by the Contracting Officer to satisfy the requirements of this contract are set forth in the individual subcontracting plan.

(g) A commercial plan is the preferred type of subcontracting plan for contractors furnishing commercial items. The commercial plan shall relate to the offeror's planned subcontracting generally, for both commercial and Government business, rather than solely to the Government contract. Once the Contractor's commercial plan has been approved, the Government will not require another subcontracting plan from the same Contractor while the plan remains in effect, as long as the product or service being provided by the Contractor continues to meet the definition of a commercial item. A Contractor with a commercial plan shall comply with the reporting requirements stated in paragraph (d)(10) of this clause by submitting one SSR in eSRS for all contracts covered by its commercial plan. This report shall be acknowledged or rejected in eSRS by the Contracting Officer who approved the plan. This report shall be submitted within 30 days after the end of the Government's fiscal year.

(h) Prior compliance of the offeror with other such subcontracting plans under previous contracts will be considered by the Contracting Officer in determining the responsibility of the offeror for award of the contract.

(i) A contract may have no more than one plan. When a modification meets the criteria in [19.702](#) for a plan, or an option is exercised, the goals associated with the modification or option shall be added to those in the existing subcontract plan.

(j) Subcontracting plans are not required from subcontractors when the prime contract contains the clause at [52.212-5](#), Contract Terms and Conditions Required to Implement Statutes or Executive Orders—Commercial Items, or when the subcontractor provides a commercial item subject to the clause at [52.244-6](#), Subcontracts for Commercial Items, under a prime contract.

(k) The failure of the Contractor or subcontractor to comply in good faith with—

(1) The clause of this contract entitled "Utilization Of Small Business Concerns;" or

(2) An approved plan required by this clause, shall be a material breach of the contract.

(l) The Contractor shall submit ISRs and SSRs using the web-based eSRS at <http://www.esrs.gov>. Purchases from a corporation, company, or subdivision that is an affiliate of the prime Contractor or subcontractor are not included in these reports. Subcontract award data reported by prime Contractors and subcontractors shall be limited to awards made to their immediate next-tier subcontractors. Credit cannot be taken for awards made to lower tier subcontractors, unless the Contractor or subcontractor has been designated to receive a small business or small disadvantaged business credit from an ANC or Indian Tribe. Only subcontracts involving performance in the United States or its outlying areas should be included in these reports.

(1) ISR. This report is not required for commercial plans. The report is required for each contract containing an individual subcontract plan.

(i) The report shall be submitted semi-annually during contract performance for the periods ending March 31 and September 30. A report is also required for each contract within 30 days of contract completion. Reports are due 30 days after the close of each reporting period, unless otherwise directed by the Contracting Officer. Reports are required when due, regardless of whether there has been any subcontracting activity since the inception of the contract or the previous reporting period.

(ii) When a subcontracting plan contains separate goals for the basic contract and each option, as prescribed by FAR [19.704\(c\)](#), the dollar goal inserted on this report shall be the sum of the base period through the current option; for example, for a report submitted after the second option is exercised, the dollar goal would be the sum of the goals for the basic contract, the first option, and the second option.

(iii) The authority to acknowledge receipt or reject the ISR resides—

(A) In the case of the prime Contractor, with the Contracting Officer; and

(B) In the case of a subcontract with a subcontracting plan, with the entity that awarded the subcontract.

(2) SSR.

(i) Reports submitted under individual contract plans—

(A) This report encompasses all subcontracting under prime contracts and subcontracts with the awarding agency, regardless of the dollar value of the subcontracts.

(B) The report may be submitted on a corporate, company or subdivision (e.g. plant or division operating as a separate profit center) basis.

(C) If a prime Contractor and/or subcontractor is performing work for more than one executive agency, a separate report shall be submitted to each executive agency covering only that agency's contracts, provided at least one of that agency's contracts is over \$700,000 (over \$1.5 million for construction of a public facility) and contains a subcontracting plan. For DoD, a consolidated report shall be submitted for all contracts awarded by military departments/agencies and/or subcontracts awarded by DoD prime Contractors.

(D) The consolidated SSR shall be submitted annually for the twelve month period ending September 30. The report is due 30 days after the close of each reporting period.

(E) Subcontract awards that are related to work for more than one executive agency shall be appropriately allocated.

(F) The authority to acknowledge or reject SSRs in eSRS, including SSRs submitted by subcontractors with subcontracting plans, resides with the Government agency awarding the prime contracts unless stated otherwise in the contract.

(ii) Reports submitted under a commercial plan—

(A) The report shall include all subcontract awards under the commercial plan in effect during the Government's fiscal year.

(B) The report shall be submitted annually, within thirty days after the end of the Government's fiscal year.

(C) If a Contractor has a commercial plan and is performing work for more than one executive agency, the Contractor shall specify the percentage of dollars attributable to each agency from which contracts for commercial items were received.

(D) The authority to acknowledge or reject SSRs for commercial plans resides with the Contracting Officer who approved the commercial plan.

STATEMENT OF WORK

<p style="text-align: center;">STATEMENT OF WORK (SOW) SKU-BASED INVENTORY SERVICES</p>
--

The following requirement is for the performance of SKU-based Inventory Services at all Defense Commissary Agency (DeCA) locations, CONUS (within the contiguous United States) and OCONUS (outside the Contiguous United States). The Indefinite Delivery/Indefinite Quantity (IDIQ) contract awards are anticipated to be one base year with four, one year option years awarded to multiple awardees.

1. GUIDING PRINCIPLES

- 1.1. The contractor will work in collaboration with DeCA personnel, DeCA auditors, and other stakeholders towards success of the inventory services.
- 1.2. The contractor will work with DeCA as a trusted business partner to create an environment of transparency during the course of this contract. Except as required by law, contractor shall not release information concerning any activities related to the DeCA's inventory services without the consent of DeCA. This restriction will not apply to any information that is publicly available.

2. PERPETUAL INVENTORY PERFORMANCE

- 2.1. The contractor is required to perform a quantity based full facility g inventory count by Stock Keeping Unit (SKU) for all grocery items sold in a Department of Defense (DoD) Commissary (military grocery store). The Contractor shall be responsible for providing all supervision, personnel, supplies, equipment, and any other items necessary to

perform the inventory. Unless otherwise specified, the term “Contractor” refers to all Contractor personnel, including sub-contractors, who participate in the inventory process. Unless otherwise specified, the terms “Government” and “Government Representative” refer to any Government employee whom the Commissary Officer or Manager authorizes to participate in the inventory process. Each awardee must provide at least two supervisors/leads who are regular, permanent employees of the prime contractor and who are present on-site at the inventory.

- 2.2. The inventory shall be performed using automated handheld scanners for scanning counts by SKU that can extend cost data by quantity. The contractor shall provide an automated technical solution for DeCA to track inventory progress by section. Each section count shall be uploaded to the relevant file(s) being maintained by the contractor immediately after counting that section.
- 2.3. The contractor shall provide DeCA with calculations of inventory valuation by SKU, section, and overall store based on SKU cost data provided by DeCA (see Paragraph 12 below).
- 2.4. The Contractor shall inventory all grocery items in the store, unless marked “Do Not Inventory” (DNI). S Grocery items are located in some or all of the following physical areas/locations: the sales area, perishable and nonperishable storage rooms, processing and/or preparation rooms, contiguous and remote warehouses, and distribution centers (all warehouses and distribution centers are collectively referred to hereafter as a “warehouse/backup storage areas”). Many of the DeCA commissary locations have product in backrooms that will be identified and staged for counting by commissary personnel.

3. CORPORATE EXPERIENCE

- 3.1. The contractor shall have at least three (3) years of performing perpetual inventories for the grocery or retail industry. In addition, the supervisors/team leaders assigned to the DeCA contract shall have a minimum of two years’ experience managing inventory teams. Supervisor/team lead resumes and staffing projections shall be submitted at time of quote prior to each issued task order. The contractor shall provide resumes for any new or changed personnel 48 hours prior to the scheduled inventory time/date.
- 3.2. For the purposes of this contract, the Contractor is considered to have completed each inventory requirement listed in the awarded task order when all requirements of paragraphs 10 and 11 below are completed to the satisfaction of the Contracting Officer.

4. SCHEDULING

- 4.1. The contractor will be provided a tentative schedule of stores and timeframes at the

subsequent calendar years. Neither commissary management/personnel nor the Contractor is authorized to change inventory performance dates/times without approval of the Contracting Officer Representative (COR) and the Contracting Officer.

- 4.2. Individual inventory location services will be solicited as a request for quote (RFQ) on a quarterly (every three months) basis approximately 60 days before the service quarter begins. All IDIQ contract awardees will be eligible to compete for individual inventory location services. Evaluation of quotes for individual inventories will be based on the following factors:

Price
Staffing Projections
Past Performance

Price: Firm fixed (fully loaded) price.

Staffing Projections: Staffing projections will be considered acceptable or non-acceptable based on requirement in paragraph 3.1. Resumes of supervisor/team lead are required.

Past Performance: Past performance will be considered acceptable or non-acceptable based on previous services for DeCA, in the grocery industry, or the retail industry. Note contractors who fail an inventory at any location will not be considered for award at that specific location the following year.

Individual locations will be awarded to the lowest priced quoter with acceptable staffing projections and past performance.

NOTE: Quotes for task orders are to be provided only for locations for which the quoter is prepared to perform services on the scheduled dates.

- 4.3. All IDIQ contract holders will be given fair opportunity to provide quotes for every location, except that contractors that fail an inventory (as defined below) at any location will not be considered for award at that specific location for the following year. In providing quotes, contract holders may provide quotes for any store on the Request for SKU-based Inventory Services Quote form. A “Two-Step” process will be used to award individual locations as follows:

4.3.1. As needed, the Contracting Officer will send out a Request for Quote (RFQ) to all contract holders for stores where SKU-based Inventory Services are required. The time frame for requests will vary depending on the needs and best interests of the government. The RFQ will include the information needed for preparation of responsive quotes.

4.3.2. Contractor quotes must be received by the Contracting Office not later than the date and

time required by the RFQ. Labor rates will be fully burdened.

- 4.3.3. Staffing projections and past performance will be considered for all quoters. Quotes from contract holders with acceptable staffing projections and past performance (as determined by the Contracting Officer) will be ranked by cost from lowest to highest by location.
 - 4.3.3.1. Contract holders who have unacceptable performance in an immediate past round of services (as determined by the Contracting Officer), will be sent a cure notice and will be considered “unacceptable” until the contract holder has submitted a performance improvement plan and that plan has been approved by the Contracting Officer. Failure to provide a performance improvement plan by the date and time required and/or continued poor performance may result in termination of any awarded task orders and/or the overall contract.
 - 4.3.4. Following submission and assessment of the quotes in accordance with the procedures identified above, successful quoters with acceptable staffing projections and past performance will be contacted and offered locations in order of assessed rank. Quoters shall respond as to whether they accept or do not accept a specific location or locations prior to the date and time required by the contracting office. If accepted, the quoter will be awarded that location or locations. If not accepted or if the quoter does not respond prior to the date and time required by the contracting office, the next lowest quote will be considered the new low quote for that location, or locations, and the process will continue until all locations are accepted at fair and reasonable prices.
 - 4.3.5. If a location cannot be awarded to any contractor using the methodology described above, DeCA may consider changing the date of the service and starting the quotation process over again, or providing another opportunity to all contract holders under the original specified date/time conditions for that location.
- 4.4. The Contractor must contact the Commissary Officer at least 2 weeks prior to the performance date to coordinate arrival time, and to discuss any other matters pertinent to this inventory. The contractor will be provided contact information for each inventory location. Since compliance with this communication requirement can affect the contractor’s past performance rating, the Contractor shall record the date and time that they contacted the commissary’s designated representative that is listed on Standard Form 1449. If the Contractor is unable to make contact with the commissary’s designated representative for any reasons, the Contractor should contact the Contracting Officer or COR for assistance.
- 4.5. Ensuring that all base access requirements (including access by all contractor and subcontractor personnel) are met in a timely manner to perform the inventory successfully is the sole responsibility of the contractor. Access to any installation is defined by the installation’s command structure. Contractors shall contact the installation security

office directly to determine what the access requirements are for that installation, and shall plan arrivals accordingly. Inventories will be conducted in the United States, Puerto Rico, Guam, the Middle East, Asia, and Europe. It is the contractor's responsibility to gain access to the country, state, and installation of each service location awarded to that contractor. As access and visa requirements continually change, the Contractor must identify and comply with all current access requirements at all locations. The contractor will be performing inventories without a Department of Defense sponsorship. Failure to pursue and attain applicable access requirements will be considered a default of that inventory.

5. INVENTORY PERFORMANCE

- 5.1. The contractor will be provided a Master File consisting of a download of SKU's and their respective cost data (see Paragraph 12 below) for items carried at the store being inventoried. This download will be provided no later than close of business on the working day (Monday through Friday, excluding federal holidays and base closures) immediately prior to day of the inventory.
- 5.2. Immediately prior to the start of the contract inventory count, a Government representative will orally brief contractor personnel on safety and security concerns; on the location of break rooms, restrooms, and smoking areas; and on any other matters considered pertinent to performance of the inventory. A Government representative will conduct a "walk-through" of the commissary facility(s) with the Contractor to review inventory preparation and to identify unique facility characteristics. In the space provided on the "SKU Based Perpetual Inventory Certification – Part A" (DeCA Form 40-106A), the Contractor shall sign to indicate that the Government has provided this "walk-through," and may include applicable written comments regarding inventory or store conditions that may impact the contractor's ability to properly perform the inventory. Store management will immediately scan and email a copy of the completed form to inventorydocs@deca.mil.

6. GOVERNMENT RESPONSIBILITIES

- 6.1. Prior to the inventory commencing, areas that are not to be counted will be identified and marked as "DNI" for easy identification to contractor personnel. Items that are identified as markdown items (Section 50) shall be separated by PLU (#501, food items and #502, non-food items). Items that are identified as salvage items (Section 300) shall be separated by PLU (#501, food items and #502, non-food items). Stores will print a 501 and 502 label and the contractor will count and enter quantities for items to be counted.
- 6.2. Price Look Up (PLU) labels will be printed for unique and/or irregular items such as MREs and bottle deposits.

- 6.3. “Feds Feeds Families” bags must be opened and items made accessible for counting.
- 6.4. Warehouse/backup storage areas will be set up by commissary personnel to be scanned by SKU. The contractor will be able to go to each product and find a SKU label with quantities associated to the SKU to input into its system. The contractor should not be required to open or move product.
- 6.5. To expedite counting, merchandise displayed on shelves in the sales area will be “blocked back” and properly faced and aligned with shelf labels to facilitate accurate counts. Whether in the sales area or in the warehouse/backup storage area, products will be leveled, organized, sorted by SKU and/or stacked so that all items to be counted are clearly visible or identified to the Contractor. Walk around clearance will be maintained for product stored on pallets.
- 6.6. The Government will weigh any bulk items such as candy, coffee, cookies, etc., and will provide weight information to the Contractor. Store personnel will identify the SKU and link it to a weight metric associated with that particular bulk item. Store personnel will ensure that the Master File SKU list does not include any seasonal or pallet codes that are no longer in the store.
- 6.7. DeCA will limit, except for emergency repairs, any non-inventory work in the sales and warehouse/backup storage areas during the scheduled time of the inventory.

7. CONTRACTOR RESPONSIBILITIES

- 7.1. Upon receipt of the Master File provided by DeCA, the contractor is responsible for verifying receipt and reviewing the file for any issues that may prevent the contractor from successfully performing the scheduled inventory. Any such issues in the file shall be immediately reported to the COR upon discovery.
- 7.2. Upon arrival to the scheduled store, the contractor shall immediately report to store management and confirm receipt of the Master File and the contractor’s readiness to conduct the inventory (e.g. base access, equipment, information, and manpower). At this time, the contractor shall explain to store management its technical approach to completing the scheduled inventory. At a minimum, the technical approach shall include the contractor’s method for capturing SKU and PLU scanned data, method for tracking inventory progress, and equipment to be provided by the contractor

to DeCA employees to perform validations in accordance with paragraph 8.4 below.

- 7.3. Prior to commencing the inventory, the contractor shall conduct a walkthrough of the store with the designated store management representative and sign the walk-through statement found on the certification form (DeCA Form 40-106A, "SKU Based Perpetual Inventory Certification – Part A" – see Exhibit 1). Following the walk-through, the contractor is responsible for numbering each section in the store to be inventoried. Natural breaks should be considered when determining section sizes. The Contractor will not skip an identifier when assigning sections. The contractor will, to the extent feasible, identify sections that are adjacent or physically close to one another and identified sequentially. Stores may contain "off-shelf displays," which includes merchandise that the Contractor is required to include in section assignments and count. Commissary Management reserves the right to review the reasonableness of the contractor's section determination (to include the warehouse) and to make changes, as necessary.
- 7.4. Any items which are outside of their normally designated location at the start of the inventory will be inventoried where they are. After the inventory is completed, items can be moved by DeCA staff members to their designated locations.
- 7.5. The Contractor is not required to count tobacco products, such as cigarettes, cigars, chewing tobacco and snuff products. The Contractor IS required to count smoking cessation items, such as Nicorette, cigarette lighters, and matches.
- 7.6. During conduct of the inventory, the contractor shall be responsible for reporting inventory progress in accordance with paragraph 8.2 below and providing handheld devices for validation purposes in accordance with paragraph 8.4 below. ***At no point shall the contractor ask Commissary personnel to assist in counting inventory.***
- 7.7. Following the inventory counting process and validations, the contractor shall complete its portion of the SKU Based Perpetual Inventory

Certification form in accordance with paragraph 10 below.

- 7.8. After departing the inventoried store, the contractor shall submit its final report in accordance with paragraph 11 below.

8. TECHNICAL SPECIFICATIONS

- 8.1. The contractor must provide automated equipment and software capable of capturing scanned SKU data and quantity on hand for both counting and validation purposes. The system must have the ability to automatically include SKUs and PLUs that may not be included in the Master File provided by DeCA into the section count. All items shall be scanned by product SKU, and not the electronic or paper shelf label.
- 8.2. The contractor shall provide store officials the ability to track inventory progress as sections are counted. DeCA's preference is that the contractor provides a separate device to track inventory progress.
- 8.3. A laptop computer shall be used for the inventory process which includes the capability for section quantity uploads. DeCA recognizes that Rapid Frequency Distribution (RFD) capability may not be possible due to the requirement for section delineation. For systems that cannot support RFD capability, counts shall be uploaded after each section is counted.
- 8.4. The contractor shall provide an adequate number of handheld devices to store management for the purposes of performing validations without impeding progress on the contractor's performance of the inventory. As stated below in paragraph 9.1, the validation process shall be automated. The handheld devices can be in the form of a tablet, scanner, or any electronic device capable of scanning SKUs to be validated. These devices must be able to either immediately compare the contractor's initial count to DeCA's validation count or be immediately available to directly upload to the contractor's database to validate the contractor's initial count to DeCA's count. This is mandatory, for the purpose of eliminating manual mistakes, reducing data entry errors, and de the amount of time and effort to complete the validation process outlined in paragraph 9 below.

9. VALIDATION

- 9.1. DeCA employees shall perform all validations of inventory counts. The contractor will be responsible for providing validation equipment and performing recounts as necessary.
- 9.2. The validation process shall be automated and manual processes for conducting validations is not be permitted. All High Risk sections, plus 20% of remaining sections

are to be validated. There are fifteen (15) High risk sections, as determined by the Contracting Officer's Representative (COR). Each Section will have no less than ten (10) SKUs validated. If there are less than ten (10) SKUs in a section the entire section will be validated. The sections or SKUs to be validated will not be shared with the contractor prior to commencement of section validations.

- 9.3. When a section is validated and the count on any item does not match the contractor count, then a third count shall be performed on those items by the contractor, with other than the original counter, while accompanied by a DeCA employee. However, if within a section validation performed by DeCA, five (5) or more of the validated items do not match, then the entire section must be recounted by the contractor and revalidated by a DeCA employee. This counts as a third count validation of an entire section.
- 9.4. If during validation a SKU was not counted by the contractor, the entire section shall be recounted by the contractor and revalidated by a DECA employee. This is considered a third count validation of an entire section. Any validation that has to go to a third count is considered an "Exception" and will be specifically noted on the Inventory Validation Log with "EX".
- 9.5. The inventory shall be deemed and recorded as a failure after five (5) instances of going to a third count validation for an entire section. The government reserves all rights under this contract and applicable law to take appropriate action if failure occurs.
- 9.6. Inventory contractors must remain vigilant to ensure the integrity of a clean validation count where the person validating has no knowledge of the first count. One way to maintain a sanitized inventory process is to avoid the appearance that inventory count could have been shared with the person validating. Inventory validity is a crucial element of the inventory process and contractor failure to ensure the integrity of a sanitized process may result in a termination for cause of both the task order and contract.

13. PAYMENT

- 13.1. **PAYMENT AMOUNT:** After service is completed and accepted by the Contracting Officer, the contractor will be paid the amount identified on the task order. **NOTE:** A service is accepted when the inventory is determined successful at that location, the requirements in paragraphs 10 and 11 have been fulfilled, and the government approves the final report. Inventory task orders will be issued as fixed price orders based on the contractor's proposed price.
- 13.2. In the event of a contractor failure to meet contract requirements or performance specifications, the government reserves the right to withhold payment, as appropriate.
- 13.3. **PAYMENT PROCESSING:** After the contractor submits a proper electronic invoice via Procurement Integrated Enterprise Environment (PIEE) system (formerly known as WAWF), the Contracting Officer's Representative (COR), will use the signed DeCA Form 40-106 to confirm completion of the inventory. After confirming completion of the inventory and receiving the contractor's electronic invoice via PIEE, the COR will then document acceptance of the service in PIEE and the payment will be processed via DFAS electronically.

14. CONTRACTOR LIABILITY

- 14.1. Because of the nature and use of inventories in DeCA's accounting system, and the

disruptions in store operations and sales due to inventory performance, time is of the essence in the performance of this contract. Failure to meet the required schedule, or to complete an inventory in the time provided, will be considered a failure of the inventory.

- 14.2. In the event of a failed inventory under Paragraphs 14.1, 9.5, or other provisions of this contract, the government reserves all rights under this contract and applicable law to take appropriate action, with or without an opportunity to cure or to repeat performance.

15. ENTERPRISE-WIDE CONTRACTOR MANPOWER REPORTING

- 15.1. The contractor shall report ALL contractor labor hours (including subcontractor labor hours) required for performance of services provided under this contract for the Defense Commissary Agency (DeCA) via a secure data collection site. The contractor is required to complete all required data fields using the following web address: <http://www.ecmra.mil/>.
- 15.2. Reporting inputs will be for the labor executed during the period of performance during each Government fiscal year (FY), which runs October 1 through September 30. While inputs may be reported any time during the FY, all data shall be reported no later October 31 of each calendar year. Contractors may direct questions to the help desk using the point of contact information listed on the website.

Contractors shall not access data stored in inventory machines or other inventory recorded data while using a telecommunication device during a break, meal period, or any other time unless the communication is with DeCA contracting office personnel.

17. EMERGENCIES

- 17.1. If a personal emergency or injury occurs during the process of inventory, contractor personnel will notify the COR immediately.
- 17.2. If an emergency occurs that impacts safety of the commissary facility or its users, store management will immediately notify the contractor's personnel and take appropriate action.

18. "On-Ramping" of Future Contracts

- 18.1. Prior to the start of Option Years 3 and 4, opportunities for new awards will be published through beta.sam.gov. Instructions and methods similar to those in the original solicitation will be used to seek and evaluate potential contractors.
- 18.2. Any new contract awarded as an “on-ramp” contract will have the same POP as the current contracts, and will end on March 31, 2025 if all option years are exercised.

19. “Off-Ramping” of Contractors

- 19.1. The Government reserves the right to utilize off-ramps when it determines a Contractor's performance is less than satisfactory, the Contractor consistently provides no-quote, or the Contractor is unable to provide adequate capability of support as evidenced by failure of an inventory or similar outcome.
- 19.2. The Government will assess Contractor performance at task order levels using periodic reviews and annual ratings via the Contractor Performance Assessment Rating System (CPARS).
- 19.3. Contractors with less than satisfactory performance may be removed from the IDIQ contract at any time.
