G. ORDERING: For purposes of this contract, delivery orders or task orders, as referred to in DFARs 252.216-7006, Ordering (contained herein), is defined as the daily reconciliation document which serves as a receipt and an invoice for bill paying purposes. Paragraph (c) of the reference clause is not applicable to this contract.

H. ITEM TRANSFER: Deli/bakery contractors are often required to purchase case lot quantities when procuring food subsistence from food wholesalers or retail outlets for utilization in their food production process. This often necessitates the purchase of quantities that exceed their requirements resulting in spoilage and losses that are passed down to our patrons in the form of increased prices. The intent of this procedural change is not to supply all food subsistence needs to contractors but to afford deli/bakery contractors access to better quality food by authorizing purchases from produce, meat and grocery departments in amounts that may not otherwise be available.

The deli/bakery contractors are authorized to request purchases of specific commissary-owned food to incorporate into products they sell in order to enhance their display cases, to add to a product offered for sale and to process for resale. Examples include tomatoes or lettuce for incorporation into a sandwich or pickles added as a side to a sandwich. The deli/bakery contractor can make use of this privilege at their discretion.

All subsistence sold to the deli/bakery contractor from the commissary must be exclusively utilized to support deli/bakery operations, as specified in the contractual agreement with DeCA. The deli/bakery contractor may not offer the purchased items for resale to the patron for other than the aforementioned conditions. For example, the deli/bakery contractor may not sell tomatoes or lettuce in their original condition. Additionally, deli/bakery contractors may not utilize the purchases process to replace their traditional suppliers for reoccurring food subsistence requirements. In the event the deli/bakery contractor violates the purchase procedures or utilize the purchased food subsistence for other than an approved use, action will be taken to immediately terminate the transfer/purchase privilege.

In the event the commissary experiences a not-in-stock situation on an item normally requested by the deli/bakery contractor or the request for new items is denied, the contractor shall hold the Government harmless. In these situations, the contractor is expected to utilize traditional methods for store replenishment to ensure there is no degradation in service to our customers.

Savings incurred through the purchase of food from the commissary to the deli/bakery contractor, shall be passed on to the patron. These savings are attributable to lower prices for the purchased merchandise as well as shrink. The contracting officer will be responsible for validating savings to the patron.

Designated as pre-approved for purchases are:

(1) Avocados, carrots, cucumbers, lemons, cabbage, lettuce (all kinds), onions, greens (mustard, kale, etc.), tomatoes (all varieties), peppers (various colors), and grapes.

(2) Produce in limited quantities (usually less than one pound) for enhancement of display cases.

(3) Food, such as pickles or olives that will be added as a garnish to sandwiches or fresh uncooked or frozen chicken that will be transformed into roasted ready-to-eat chicken may be approved by the contracting officer upon receipt of a written request from the deli/bakery contractor. These written requests will be handled on a case-by-case basis and must be for a specific period of time or permanent basis.

The deli/bakery contractor must complete a DeCA Form 70-20, Subsistence Request for Issue, Turn-In or Transfer, Apr 2006 (attachment 1) as follows:

(1) One form will be submitted for each department that items are requested and issued from. The deli/bakery manager or designated representative must sign and date the DeCA Form 70-20 in the field denoted as "Issue/Turn-In Quantity Is Requested By".

(2) The "Request To", "Date Items Required", "Item Description", "Unit of Issue", "Quantity", "Unit Price", and "Unit Cost" fields must be completed. The commissary shall utilize the retail price and not the cost price.

(3) The department manager or designee shall sign and date the DeCA Form 70-20 indicating that the product has been issued to the deli/bakery contractor in the "Issue Qty In Supply Action" field. The contractor shall validate all issues by signing and dating the DeCA Form 70-20 in the "Rec Qty In Supply Action" field.

(4) The issuing department will be responsible for control and overall monitoring of DeCA Form 70-20. The original forms will be maintained in the issuing department.

The issuing department (s) will roll up the DeCA Form 70-20 on the two working days after the end of the roll up period, and possibly before an inventory at the direction of commissary management. The DeCA Form 70-20 is for record keeping purposes to support the deduction and will be maintained by the issuing department.

The contractor shall review the DeCA Form 70-20 for accuracy and sign it. A copy of supporting DeCA Form 70-20 (s) will be provided to the contractor upon completion. The amount on the DeCA Form 70-20 will be deducted from the amount submitted to the Resale Accounting Branch (RAB) before the receipt amount is submitted. The deli/bakery contractor will be responsible for forwarding completed copies of the DeCA Form 70-20 (s) to their company's accounting office as appropriate. The DeCA Form 70-20 will also be used as supporting documentation to record the transfers of product from issuing department to the gaining department.

I. MILITARY FOOD INSPECTIONS: The MFI serves as the food safety regulator for the DeCA. The MFI is a representative of the U.S. Army or U.S. Air Force Public Health Command. U.S. Army Public Health Command representatives support commissaries on Army, Navy, and Marine Corps installations. The primary role of the MFI is regulatory in nature and reinforces federal and DoD food safety and sanitation requirements. In addition to the regulatory role, the Army MFI also performs food inspections as a core mission requirement. Food inspections are performed to determine quality, condition, and wholesomeness. All items sold in the commissary store are subject to inspection by the MFI.

J. REQUEST FOR EQUITABLE ADJUSTMENTS DUE TO CHANGES IN DEPARTMENT OF LABOR WAGE DETERMINATIONS: In accordance with FAR 52.222-43, Fair Labor Standards Act and Service Contract Act-Price Adjustment, adjustments to pricing (patron savings) resulting from mandatory increases in wage rates and/or health and welfare benefits on applicable Department of Labor (DoL) wage determinations are permissible. An offeror who elects to request price adjustments shall provide specific information describing how increases will impact the percentage of savings after giving consideration to the most recent annual inflation rate as published on the U.S. Department of Labor Statistics, Consumer Price Index (CPI) table for Food and Beverages. This table can be accessed at www.bls.gov/data/. The response to this issue shall be in sufficient detail to allow for a clear and calculable understanding of the potential impact. The U.S. Department of Labor Price Adjustment Calculator Tool (PACT) shall be utilized to determine the amount that may be requested as a result of issuance of new wage determination rates. SCA Price Adjustment requests that do not include a completed PACT excel book may be determined incomplete and ineligible for further consideration by the Contracting Officer. The PACT tool and

training for how to use the PACT tool is available at <http://www.wdol.gov/pact/>. Your explanation should be detailed enough to not require additional follow-up questions from the Contracting Officer on this matter.

Changes/additional/enhancements that once approved by the Government are later determined to be cost prohibitive and/or structurally difficult shall be renegotiated to an acceptable alternative by both the Contractor and Government.

All changes, structural and electrical, to include the movement and placement of equipment, must be coordinated by the Contractor with Store Management and the Contracting Officer.

PERFORMANCE WORK STATEMENT

COMMISSARY DELICATESSEN AND BAKERY OPERATIONS

1. SCOPE OF WORK

1.1. Introduction. A military commissary is a Government facility providing resale food items and other merchandise to authorized individuals, termed “patrons.” It is a facility designed and operated similar to commercial supermarkets. The commissary’s goals are to provide a cost savings for patrons when compared to commercial markets, to provide courteous and informative assistance to patrons, to offer a variety of items in quantities to satisfy patron demands, and to make the items available to patrons in a clean, safe, and wholesome environment. Overall management and operation of a commissary is the responsibility of the Store Director of each commissary store, operating within Agency policy and standards. The Store Director responds to the support requirements of patrons, meets with consumer groups, and acts as liaison for the Defense Commissary Agency (DeCA) at the installation level.

1.2. General. This contract is written and will be administered as a Performance Based Services Acquisition (PBSA). This method of contracting requires that the Government describe the requirements the Contractor must meet in terms of outcome or results. The “how” is left to the Contractor, within certain regulatory guidelines as referenced herein. This allows the Contractor more flexibility in achieving the desired results. The Contractor shall execute its responsibilities under this contract in a manner that is consistent with the performance standards contained herein.

1.2.1. The Contractor shall furnish all personnel, supervision, food products, and other items (unless otherwise specified) necessary to operate a well-stocked deli and bakery resale operation offering a variety of items in quantities to satisfy customer demands and maximize customer satisfaction at the locations specified in the schedule.

1.2.2. Services and Sales. The contractor shall provide fast, friendly, courteous services that result in high levels of customer satisfaction and increased sales.

1.2.3. Savings. The Contractor shall provide a cost savings to the patron over the costs of same or similar items from comparable commercial supermarket operations within the local commuting area (as set forth in the schedule) of Contractor performance (excludes membership clubs, i.e. Sam’s, Costco, etc., “Super Centers”, i.e. Wal-mart, Target, etc., specialty stores, i.e. Whole Foods, etc., and convenience type stores).

1.2.4. Ownership of Products. Ownership of deli and bakery resale products will remain with the contractor until scanned (or keyed, if not scan able) at a DeCA authorized register.

1.2.5. Product Variety. The Contractor will ensure the deli provides customers with a variety of luncheon meats, cheeses, salads, gelatins, puddings, and ready-to-eat cold meats, etc., as needed. The selection of these products will be determined by customer demand and reviewed by store management.

1.2.6. New Initiatives. All new initiatives must be submitted to the Program Manager, Marketing Business Unit (MBU), for approval before implementation.

1.2.7. Contractor Reimbursement. The Contractor and commissary personnel shall reconcile the amounts of the deli and bakery sales recorded on the scanning system daily. Payment will be based on a weekly rollup of the reconciliation records by the commissary.

JUSTIFICATION AND APPROVAL

FOR OTHER THAN FULL AND OPEN COMPETITION

- 1. Contracting Office:** Defense Commissary Agency (DeCA), Resale Contracting Division, Resale Services Support Branch (LEARS), 1300 E Avenue, Fort Lee, Virginia 23801-1800.
- 2. Type of Contract Action:** Modification of contract HDEC02-15-D-0011 with Military Deli & Bakery Services, Inc. This proposed modification will extend the period of performance six (6) months from December 1, 2018 through May 31, 2019. The contract type is a requirements type. The Resale Stock Fund Activity, Defense-Wide Working Capital Fund, provides funding.
- 3. Description of Supplies/Services:** This action will provide labor, management, and assorted products to 43 commissary locations within the DeCA East, Central, and West Areas. The proposed six (6) month modification would increase the estimated contract values by \$921,318.64 for a new total contract amount of \$7,370,549.09 and extend the contract performance period until May 31, 2019.
- 4. Authority Cited:** 10 U.S.C. §2304(c) (1), in accordance with FAR 6.302-1, only one responsible source and no other supplies or services will satisfy Agency requirements.
- 5. Reason for Authority Cited:** Contract HDEC02-15-D-0011 expires on November 30, 2018. Only the incumbent contractor can provide full uninterrupted service to the commissaries until the new award is in place. The Agency incurred unexpected delays in the reacquisition process. The projected contract award date is May 1, 2019 with a performance start date of June 1, 2019.

In the absence of a contract extension, commissaries covered under this contract will be without assorted deli/bakery products and the service members serviced by these commissaries will be denied their full commissary benefit provided to them by statute under 10 USC§2481 and 10 USC §2484. The commissary benefit is the cornerstone of the military quality of life and it is essential that DeCA provides a fully operational commissary. Loss of these products would negatively impact DeCA's mission to provide for the military and their families.

Military Deli & Bakery Service, Inc., has been performing this contract successfully providing products that conform to the contractual requirements terms and conditions. They have systems in place to continue uninterrupted service. Additionally, Military Deli & Bakery Service, Inc., is the only known source available that has the necessary infrastructure established to provide uninterrupted service in accordance with federal, state, and agency requirements to the DeCA commissaries given the time constraints involved for this extension period.

- 6. Efforts to Obtain Competition:** No contractor other than the incumbent is capable of providing the required services during the proposed extended period without causing unacceptable delays, disruption in service, and unrecoverable duplication of costs. This justification will be made available for public inspection, after the completion of the contract modification to extend contract performance with the incumbent contractor, in accordance with FAR 6.305.

A sources sought notification was not issued for this requirement due to the fact that a contractor would not be capable of providing service for only a six (6) month period. Support of this effort requires contractors to provide In-store Specialty Delicatessen and Bakery Resale Operations so that the demands of the commissaries can be met on a weekly basis. Any new contractor would require approximately 30 days to hire, order, and begin services for this requirement. In order to ensure continuity of service, the requirement to post a sources sought notice is waived by the Head of the Contracting Activity as allowed by DFARS/PGI 206.302-1.

7. Fair and Reasonable Cost Determination and Contracting Officer Certification: The Contracting Officer has determined that the anticipated cost to the Government for the contract modification for the six (6) month extension is fair and reasonable based on the pricing surveys which monitor the percentage of patron savings on all core items over the selling price of the same or similar items from comparable supermarket within a 10-mile radius of the commissary location. The incumbent contractor has agreed to continue meeting the minimum percentage of patron savings required under the proposed contract performance extension. In accordance with FAR 15.404-1(b) (2), prices were determined fair and reasonable.

8. Market Research and Interested Sources: Sources from the previous acquisition history, Google searches, and the Small Business Administration Dynamic Search Database have been contacted and the market research report has been documented with the interested sources for the follow-on requirement. A pre-solicitation notice was published on the FedBizOpps website on August 30, 2018, identifying the government's intent to identify responsible companies (including small business concerns) with demonstrated experience, expertise, and performance history necessary for operating In-store Specialty Delicatessen and Bakery Resale Operations, to include White Sands Missile Range, a satellite of Holloman AFB, for 44 commissaries located in the Defense Commissary Agency's (DeCA) East, Central, and West Area commissary locations.

9. Actions to Increase/Foster Competition: The follow-on acquisition will be solicited on a full and open competition basis.
