November 1, 2021

NOTICE TO THE TRADE – DeCA NOTICE 21-91

SUBJECT: FY22 – FY24 Sales Floor Rack-Cooler Program

The attached spreadsheets identify racks and coolers approved for placement in commissaries for the period of October 1, 2021, through September 30, 2023. These dates supersede the dates noted on the referenced NTT 21-45.

The primary focus of these units is for the off-shelf display of high velocity and seasonal items, and items that do not have a permanent location on store shelves. Not included in this program are front-end racks, shippers, pallets, one-time buys, local/regional products, and temporary fixtures to support new item introductions and product demonstrations.

Industry is required to ensure racks and coolers are maintained in a serviceable and clean condition and that items on these fixtures are replenished within 24 to 48 hours. Failure to maintain the fixture, product assortment, or signage could result in the unit being pulled from the program. Fixture must be plugged directly into dirty power outlets. No extension cords are allowed.

Racks not included on the HQ's approved list will be identified by stores for removal and placed in a holding area with notice to the applicable vendor allowing an appropriate time frame for removal.

Cooler Banks must be presented to HQ's for approval, store level approval is not authorized.

The Sales Directorate will publish updates to this program as applicable. Iveena Henderson, program manager at iveena.henderson@deca.mil and respective category managers.
